Network Programming Lab Manual:

Foundations of Python Network Programming John Goerzen, Tim Bower, Brandon Rhodes, 2011-02-24 This second edition of Foundations of Python Network Programming targets Python 2.5 through Python 2.7 the most popular production versions of the language Python has made great strides since Apress released the first edition of this book back in the days of Python 2.3 The advances required new chapters to be written from the ground up and others to be extensively revised You will learn fundamentals like IP TCP DNS and SSL by using working Python programs you will also be able to familiarize yourself with infrastructure components like memcached and message queues You can also delve into network server designs and compare threaded approaches with asynchronous event based solutions But the biggest change is this edition's expanded treatment of the web The HTTP protocol is covered in extensive detail with each feature accompanied by sample Python code You can use your HTTP protocol expertise by studying an entire chapter on screen scraping and you can then test lxml and BeautifulSoup against a real world web site The chapter on web application programming now covers both the WSGI standard for component interoperability as well as modern web frameworks like Django Finally all of the old favorites from the first edition are back E mail protocols like SMTP POP and IMAP get full treatment as does XML RPC You can still learn how to code Python network programs using the Telnet and FTP protocols but you are likely to appreciate the power of more modern alternatives like the paramiko SSH2 library If you are a Python programmer who needs to learn the network this is the book that you want by your side

Python Network Programming Abhishek Ratan, Eric Chou, Pradeeban Kathiravelu, Dr. M. O. Faruque Sarker, 2019-01-31 Power up your network applications with Python programming Key Features Master Python skills to develop powerful network applications Grasp the fundamentals and functionalities of SDN Design multi threaded event driven architectures for echo and chat servers Book Description This Learning Path highlights major aspects of Python network programming such as writing simple networking clients creating and deploying SDN and NFV systems and extending your network with Mininet You'll also learn how to automate legacy and the latest network devices As you progress through the chapters you'll use Python for DevOps and open source tools to test secure and analyze your network Toward the end you'll develop client side applications such as web API clients email clients SSH and FTP using socket programming By the end of this Learning Path you will have learned how to analyze a network's security vulnerabilities using advanced network packet capture and analysis techniques This Learning Path includes content from the following Packt products Practical Network Automation by Abhishek Ratan Mastering Python Networking by Eric Chou Python Network Programming Cookbook Second Edition by Pradeeban Kathiravelu Dr M O Faruque Sarker What you will learn Create socket based networks with asynchronous models Develop client apps for web APIs including S3 Amazon and Twitter Talk to email and remote network servers with different protocols Integrate Python with Cisco Juniper and Arista eAPI for automation Use Telnet and SSH connections for remote system monitoring Interact with websites via XML RPC SOAP and

REST APIs Build networks with Ryu OpenDaylight Floodlight ONOS and POX Configure virtual networks in different deployment environments Who this book is for If you are a Python developer or a system administrator who wants to start network programming this Learning Path gets you a step closer to your goal IT professionals and DevOps engineers who are new to managing network devices or those with minimal experience looking to expand their knowledge and skills in Python will also find this Learning Path useful Although prior knowledge of networking is not required some experience in Python programming will be helpful for a better understanding of the concepts in the Learning Path
