Foundations of College Chemistry, International Adaptation Morris Hein, Susan Arena, Cary Willard, 2023-05-16

Foundations of College Chemistry 16th edition presents chemistry as a modern vital subject and is designed to make introductory chemistry accessible to all beginning students. It is intended for students who have never taken a chemistry course or those who had a significant interruption in their studies but plan to continue with the general chemistry sequence. The central focus is to make chemistry interesting and understandable and teach students the problem solving skills they will need. This International Adaptation offers new and updated content with improved presentation of all course material. It builds on the strengths of previous editions including clear explanations and step by step problem solving. The material emphasizes real world applications of chemistry as the authors develop the principles that form the foundation for the further study of chemistry. There is new and expanded coverage of polarizing power and polarizability, Fajans rules, collision number and mean free path, abnormal molecular masses and van t Hoff factor and applications of radioactivity.

Foundations of College Chemistry Morris Hein, Susan Arena, Cary Willard, 2016-08-02. This text is an unbound three hole punched version. Used by over 750 000 students. Foundations of College Chemistry Binder Ready Version 15th Edition is praised for its accuracy, clear no nonsense approach and direct writing style. Foundations direct and straightforward explanations focus on problem solving making it the most dependable text on the market. Its comprehensive scope, proven track record, outstanding in text examples and problem sets were all designed to provide instructors with a solid text while not overwhelming students in a difficult course. Foundations fits into the prep intro chemistry courses which often include a wide mix of students from science majors not yet ready for general chemistry, allied health students in their 1st semester of a GOB sequence, science education students for elementary school teachers to the occasional liberal arts student fulfilling a science requirement. Foundations was specifically designed to meet this wide array of needs.
