Golden Rule Thomas Ferguson, 2011-08-15 To discover who rules follow the gold This is the argument of Golden Rule a provocative pungent history of modern American politics Although the role big money plays in defining political outcomes has long been obvious to ordinary Americans most pundits and scholars have virtually dismissed this assumption Even in light of skyrocketing campaign costs the belief that major financial interests primarily determine who parties nominate and where they stand on the issues that in effect Democrats and Republicans are merely the left and right wings of the Property Party has been ignored by most political scientists Offering evidence ranging from the nineteenth century to the 1994 mid term elections Golden Rule shows that voters are right on the money Thomas Ferguson breaks completely with traditional voter centered accounts of party politics In its place he outlines an investment approach in which powerful investors not unorganized voters dominate campaigns and elections Because businesses invest in political parties and their candidates changes in industrial structures between large firms and sectors can alter the agenda of party politics and the shape of public policy Golden Rule presents revised versions of widely read essays in which Ferguson advanced and tested his theory including his seminal study of the role played by capital intensive multinationals and international financiers in the New Deal The chapter Studies in Money Driven Politics brings this aspect of American politics into better focus along with other studies of Federal Reserve policy making and campaign finance in the 1936 election Ferguson analyzes how a changing world economy and other social developments broke up the New Deal system in our own time through careful studies of the 1988 and 1992 elections The essay on 1992 contains an extended analysis of the emergence of the Clinton coalition and Ross Perot s dramatic independent insurgency A postscript on the 1994 elections demonstrates the controlling impact of money on several key campaigns This controversial work by a theorist of money and politics in the U S relates to issues in campaign finance reform PACs policymaking public financing and how today s elections work Shared Prosperity in a Fractured World Dani Rodrik, 2025-11-04 New practical approaches to confronting today s most daunting global issues Fighting climate change saving democracy and eradicating poverty are urgent global challenges yet the world s leaders continue to pursue outdated policies that focus on one while worsening the tradeoffs between each of them Shared Prosperity in a Fractured World shows how the nations of the world can achieve all three objectives Dani Rodrik provides a bold new vision of globalization one in which we accelerate the green transition to achieve a sustainable planet shore up the middle class to restore democracy s foundations and hasten economic revitalization in the developing world to put an end to poverty The rising tide of authoritarianism has demonstrated our inability to alleviate economic anxieties Economic nationalism has raised the specter of increased protectionism and deteriorating prospects for economic growth And automation and other new technologies have undercut the advantages of low cost unskilled labor in manufacturing and export oriented industrialization Rodrik reveals how we can restore prosperity through new forms of collaborative public private action to

promote renewables and green industries middle class jobs and enhanced productivity in labor absorbing services even in the absence of global cooperation He explains why this new kind of globalization must also recognize the legitimate desire of governments to pursue their economic social and security interests autonomously Turning conventional economic wisdom on its head Shared Prosperity in a Fractured World builds on practices that work while radically transforming those that don't presenting a grounded clear eyed approach to tackling the problems that affect us all at home and around the world
