

How do I find things inside

Metasploit is organized as follows: every term that appears a degree (to the right) of the $\$$ sign is not listed, it will not be found by itself. The goal is to understand the logic of all such terms in the code and the environment. This program will help you find **Everything that should be in**. Under the command of assistance, there will be the **list** command. For example:

MSF5 > difference between authenticated guests, and limited domains
