Sensing Machines Chris Salter, 2022-04-19 How we are tracked surveilled tantalized and seduced by machines ranging from smart watches and Roombas to immersive art installations Sensing machines are everywhere in our world As we move through the day electronic sensors and computers adjust our thermostats guide our Roombas count our steps change the orientation of an image when we rotate our phones There are more of these electronic devices in the world than there are people in 2020 thirty to fifty billion of them versus 7.8 billion people with more than a trillion expected in the next decade In *Sensing Machines* Chris Salter examines how we are tracked surveilled tantalized and seduced by machines ranging from smart watches and mood trackers to massive immersive art installations Salter an artist scholar who has worked with sensors and computers for more than twenty years explains that the quantification of bodies senses and experience did not begin with the surveillance capitalism practiced by Facebook Amazon Netflix and Google but can be traced back to mathematical and statistical techniques of the nineteenth century He describes the emergence of the sensed self investigating how sensor technology has been deployed in music and gaming programmable and immersive art environments driving and even eating with e-tongues and e-noses that can taste and smell for us Sensing technology turns our experience into data but Salter's story isn't just about what these machines want from us but what we want from them new sensations the thrill of the uncanny and magic that will transport us from our daily grind

Mathematics in Berlin Heinrich Begehr, Helmut Koch, Jürg Kramer, Norbert Schappacher, Ernst-Jochen Thiele, 1998-07-21 This little book is conceived as a service to mathematicians attending the 1998 International Congress of Mathematicians in Berlin It presents a comprehensive condensed overview of mathematical activity in Berlin from Leibniz almost to the present day without however including biographies of living mathematicians Since many towering figures in mathematical history worked in Berlin most of the chapters of this book are concise biographies These are held together by a few survey articles presenting the overall development of entire periods of scientific life at Berlin Overlaps between various chapters and differences in style between the chapters were inevitable but sometimes this provided opportunities to show different aspects of a single historical event for instance the Kronecker-Weierstrass controversy The book aims at readability rather than scholarly completeness There are no footnotes only references to the individual bibliographies of each chapter Still we do hope that

the texts brought together here and written by the various authors for this volume constitute a solid introduction to the history of Berlin mathematics **Energy Information Abstracts** ,1993 **Advances in Cryogenic Engineering** Peter Kittel,2013-11-11 The Oregon Convention Center Portland Oregon was the venue for the 1997 Cryogenic Engineering Conference The meeting was held jointly with the International Cryogenic Materials Conference John Barclay of the University of Victoria and David Smathers of Cabot Performance Materials were conference chairmen Portland is the home of Northwest Natural Gas a pioneer in the use of liquid natural gas and Portland State University where cryogenic research has long been conducted The program consisted of 350 CEC papers considerable more than CEC 95 This was the largest number of papers ever submitted to the CEC Of these 263 papers are published here in Volume 43 of Advances in Cryogenic Engineering Once again the volume is published in two books CEC PAPER REVIEW PROCESS Since 1954 Advances in Cryogenic Engineering has been the archival publication of papers presented at the biennial CEC ICMC conferences The publication includes invited unsolicited and government sponsored research papers in the research areas of cryogenic engineering and applications All of the papers published must 1 be presented at the conference 2 pass the peer review process and 3 report previously unpublished theoretical studies reviews or advances in cryogenic engineering
