Trigonometry	20%	10 questions
Functions	24%	12 questions
Statistics Probability	6%	3 questions
Miscellaneous	12%	6 questions

includes logic and proof elementary number theory sequences and limits Questions on the test are also grouped according to whether or not you need to use your calculator

Category Definition Approximate Percentage of Questions

STUDYING FOR THE SAT II MATH LEVEL IIC It is very important to choose the time and place for studying that works best for you Some students may set aside a certain number of hours every morning to study while others

may choose to study at night before going to sleep Other students may study during the day while waiting on line or even while eating lunch Only you can determine when and where your study time will be most effective Be consistent and use your time wisely Work out a study routine and stick to it When you take the practice tests try to make your testing conditions as much like the actual test as possible Turn your television and radio off and sit down at a quiet desk or table free from distraction Make sure to clock yourself with a timer As you complete each practice test score it and thoroughly review the explanations to the questions you answered incorrectly however do not review too much at any one time Concentrate on one problem area at a time by reviewing the questions and explanations and by studying our review until you are confident you completely understand the material Keep track of your scores By doing so you will be able to gauge your progress and discover general weaknesses in particular sections You should carefully study the reviews that cover your areas of difficulty as this will build your skills in those areas

TEST TAKING TIPS Although you may be unfamiliar with standardized tests such as the SAT II Math Level IIC Subject Test there are many ways to acquaint yourself with this type of examination and help alleviate your test taking anxieties Become comfortable with the format of the exam When you are practicing to take the SAT II Math Level IIC Subject Test simulate the conditions under which you will be taking the actual test Stay calm and pace yourself After simulating the test only a couple of times you will boost your chances of doing well and you will be able to sit down for the actual exam with much more confidence Know the directions and format for each section of the test Familiarizing yourself with the directions and format of the exam will not only save you time but will also ensure that you are familiar enough with the SAT II Math Level IIC Subject Test to avoid nervousness and the mistakes caused by being nervous Do your scratchwork in the margins of the test booklet You will not be given scrap paper during the exam and you may not perform scratchwork on your answer sheet Space is provided in your test booklet to do any necessary work or draw diagrams If you are unsure of an answer guess However if you do guess guess wisely Use the process of elimination by going through each answer to a question and ruling out as many of the answer choices as possible By eliminating three answer choices you give yourself a 50/50 chance of answering correctly since there will only be two choices left from which to make your guess Mark your answers in the appropriate spaces on the answer sheet Each numbered row will contain five ovals corresponding to each answer choice for that question Fill in the oval that corresponds to your answer darkly completely and neatly You can change your answer but remember to completely erase your old answer Any stray lines or unnecessary marks may cause the machine to score your answer incorrectly When you have finished working on a section you may want to go back and check to make sure your answers correspond to the correct questions Marking one answer in the wrong space will throw off the rest of your test whether it is graded by machine or by hand You don't have to answer every question You are not penalized if you do not answer every question The only penalty results from answering a question incorrectly Try to use the guessing strategy but if you are truly stumped by a question remember that you do not have to answer it Work quickly and steadily

You have a limited amount of time to work on each section so you need to work quickly and steadily. Avoid focusing on one problem for too long. Before the Test Make sure you know where your test center is well in advance of your test day so you do not get lost on the day of the test. On the night before the test gather together the materials you will need the next day: Your admission ticket, Two forms of identification (e.g. driver's license, student identification card, or current alien registration card), Two No. 2 pencils with erasers, Directions to the test center, A watch if you wish but not one that makes noise as it may disturb other test takers. On the day of the test you should wake up early after a good night's rest and have breakfast. Dress comfortably so that you are not distracted by being too hot or too cold while taking the test. Also plan to arrive at the test center early. This will allow you to collect your thoughts and relax before the test and will also spare you the stress of being late. If you arrive after the test begins you will not be admitted to the test center and you will not receive a refund. During the Test When you arrive at the test center try to find a seat where you feel most comfortable. Follow all the rules and instructions given by the test supervisor. If you do not you risk being dismissed from the test and having your scores canceled. Once all the test materials are passed out the test instructor will give you directions for filling out your answer sheet. Fill this sheet out carefully since this information will appear on your score report. After the Test When you have completed the SAT II Math Level IIC Subject Test you may hand in your test materials and leave. Then go home and relax. When Will I Receive My Score Report and What Will It Look Like You should receive your score report about five weeks after you take the test. This report will include your scores, percentile ranks, and interpretive information.

SAT Exam Practice Questions SAT Exam Secrets Test Prep Team, 2011 SAT Exam Practice Questions are the simplest way to prepare for the SAT test. Practice is an essential part of preparing for a test and improving a test taker's chance of success. The best way to practice taking a test is by going through lots of practice test questions. If someone has never taken a practice test then they are unprepared for the types of

questions and answer choices that they will encounter on the official test There is a tremendous advantage to someone taking the test that is already familiar with the questions and answer choices Another advantage of taking practice tests is that you can assess your performance and see if you need to study and practice more or if you re already prepared enough to achieve success on your test day If you do well on the practice test then you know you re prepared If you struggle on the practice test then you know you may still have more work to do to get prepared Taking lots of practice tests helps ensure that you are not surprised or disappointed on your test day Our SAT Exam Practice Questions give you the opportunity to test your knowledge on a set of questions You can know everything that is going to be covered on the test and it will not do you any good on test day if you have not had a chance to practice Repetition is a key to success and using practice test questions allows you to reinforce your strengths and improve your weaknesses Detailed answer explanations are also included for each question It may sound obvious but you have to know which questions you missed and more importantly why you missed them to be able to avoid making the same mistakes again when you take the real test That s why our SAT Exam Practice Questions include answer keys with detailed answer explanations These in depth answer explanations will allow you to better understand any questions that were difficult for you or that you needed more help to understand **Master the SAT: Practice Test 5**
