True 3. Chemical and physical processes include the formation of clouds and precipitation, “burning” food, and the flow of running water.

4. Explain why Earth is considered a closed system.

The Earth is a closed system because matter does not leave thanks to gravity and is just recycled in ecosystems.

5. Explain one way building a new highway might affect the cycles of matter?

Building a new highway might affect the cycles of matter because it gives organism less space hindering almost all cycles, and may be using up fossil fuels which affects the carbon cycle.

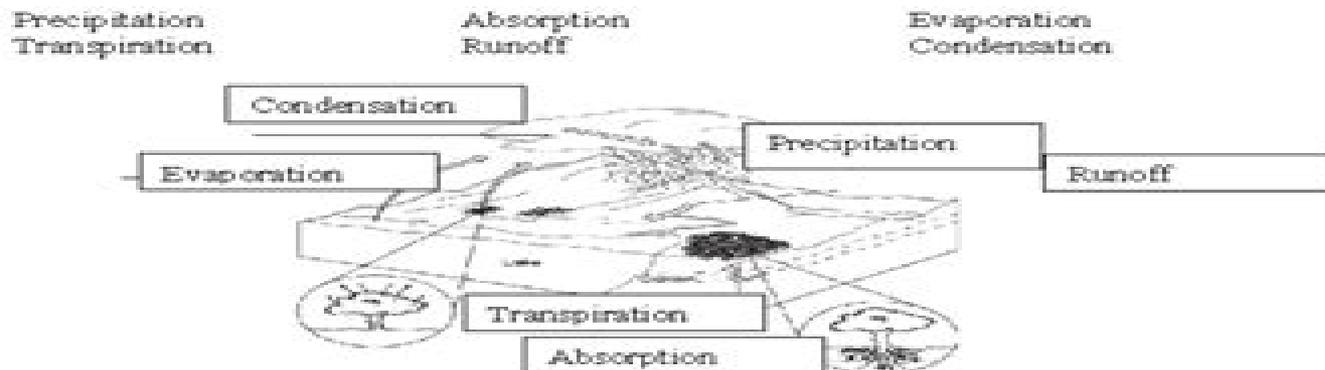

The Water Cycle

6. What role do plants play in the water cycle?

In the water cycle, plants take up water from their roots and that water is eventually evaporated via transpiration. They use their water then recycle it back into the atmosphere.

7. The water cycle involves the movement of water between the ocean, the atmosphere, land, and living things. The diagram below shows the water cycle.

Use the words below to label the parts of the water cycle.
