

Evolution of Birds

Based on the following information and knowledge about patterns of evolution being taught, explain how you think *T-Rex* type birds evolved in different ways:

1. Each of the 7 potential ancestors are both males and also are dead now.

2. Ancestors have split into 4 pairs along the same time axis. Ancestor were present during the same time period as the other groups are.

Evolutionary evidence:

3. Both groups are represented (with the same period of time) throughout the entire period. There should be some time between the groups in terms of their evolution and mating time. There are groups of different evolution along time because they do not evolve together.

Evolutionary evidence:
