SAP

Applies to:

SAP S/4HANA, SAP S/4HANA Enterprise, mySAP ERP 2004, mySAP ERP 2005

Summary

Pay to the vendor who supplies good or services received is the basic and one of the most important business functions in any organization. This function is the part of core Process to Pay or Purchase to Pay (P2P) cycle and is done with Accounts Payable sub-module of SAP. Handling a vendor invoice manually does not deliver much to the organization but a integrated number of invoices to be processed but it becomes a cumbersome task demanding much time and effort if the organization has global footprint having multiple offices and large number of vendors.

This white papering an insight in to automating the invoice processing function of P2P core business process using SAP add-on named ERM. The focus is right from the business requirement to the solution functionality.
