

The TachPRO[®] Guide to Digital Tachographs

Digital tachograph introduction

Having replaced the old analogue system in 2006, your digital tachograph stores all the data regarding your Drivers Hours, including the vehicles speed & distance.

All your information is secure and ANY attempts to tamper with a digital tachograph are recorded.

As a driver you get a driver card which is slotted into the main tachograph head unit – each card is valid for 5 years and identifies you on the tachograph being used.

The card then stores up to 28 days worth of data including such as vehicles used, distance travelled, speed, duty periods and activities. As well as this it will hold data regarding faults & events, plus keep a record should enforcement officers from the DVSA or the Police insert a control card to check for infringements.
