Caps February March 2015 Paper:

The Human Rights Covenants at 50 Daniel Moeckli, Helen Keller, Corina Heri, 2018-06-06 Half a century ago on 16 December 1966 the UN General Assembly adopted the International Covenant on Civil and Political Rights ICCPR and the International Covenant on Economic Social and Cultural Rights ICESCR. While the adoption of the two UN human rights covenants was celebrated all over the world their 50th anniversary has received very little attention from the international community. The present book marks this anniversary by taking stock of the first half century of the existence of what are probably the world's two most important human rights treaties. It does so by reflecting on what the covenants have achieved or failed to achieve in the years that have passed by determining and comparing their current influence in the various regions of the world and by assessing their potential roles in the future. The book contains papers that were presented during a symposium held in Zurich in 2016 which brought together experts and stakeholders from a range of disciplines and world regions. Some fundamental issues that are addressed by the contributors are as old as the two covenants themselves. They concern for example the division of human rights into first and second generation rights and the question of whether there should be one central monitoring body possibly a world court or more than just one. However the contributors go beyond such questions that have been explored before they develop new answers to old questions and point to new challenges.

Droit de la finance alternative Jean-Marc Moulin, 2017-05-11 La finance est en crise mais elle est indispensable la vie des hommes en socié. Cependant il serait abusif de considérer la finance comme un tout homogène. En effet loin de la finance conventionnelle qui fait la une de l'actualité il existe une finance dite alternative qui tente de placer et de maintenir l'Homme au centre de son projet et l'horizon de son ambition. Cet ouvrage premier du genre se propose de présenter sous forme de études réalisées par des spécialistes du droit financier les manifestations de cette finance alternative les outils instruments et techniques juridiques qui existent et qui permettent de concilier finance et humanisme travers l'analyse des critères de développement durable ou religieux appliqués la finance des monnaies alternatives du microcrédit de la notation extra financière du mutualisme et du coopératisme en finance du crowdfunding des fonds d'investissement du financement associatif du financement alternatif de l'habitat ou du soutien des collectivités publiques aux entreprises ce livre fait en France comme en Espagne au Royaume Uni en Grèce et au Canada un tour d'horizon complet de ce segment du secteur financier souvent méconnu et qui offre néanmoins aux Hommes de réaliser leurs projets dans la perspective d'un mieux-être collectif. Pour rompre avec l'idée que la finance n'est que spéculation et prédation.
