A Guide to Teaching Practice Louis Cohen, Lawrence Manion, Keith Morrison, Dominic Wyse, 2010-06-17 A Guide to Teaching Practice is the major standard text for all students on initial teacher training courses in the UK. Authoritative yet accessible, it covers the important basic skills and issues that students need to consider during their practice, such as planning, classroom organization, behaviour management, and assessment. The book's focus on the quality of teaching and learning, and consideration of the latest regulations and guidelines, ensures that it fits comfortably within TTA and OfSTED frameworks. In addition, comprehensively revised and fully updated, this fifth edition features brand new chapters on the foundation stage, legal issues, learning and teaching, and using ICT in the classroom, as well as new material on numeracy, literacy, children's rights, progress files, and gifted and talented children. This book is the most respected and widely used textbook for initial teacher training courses and will be an essential resource for any student teacher.

Activities for Using the Internet in Primary Schools Eta De Cicco, Mike (Senior Lecturer), Farmer, Claire Hargrave, 2014-01-27 This text guides primary staff to Internet sites of value to the national curriculum, Key Stages 1 and 2, offering appropriate ways of using ICT in the classroom. Inclusive Educational Practice Teresa Grainger, Janet Tod, 2013-10-28 First Published in 2001. An inclusive education is one which seeks to respond to individual differences through an entitlement of all learners to common curricula.

Armstrong and Barton 2000 This book attempts to respond to this definition of inclusion by examining the principles of the literacy curriculum and a range of pedagogic practices. The complex relationships between inclusion, literacy, and learning are acknowledged, and it is argued that quality learning in language and literacy can work towards increased equity and involvement within the classroom community.
