Community Colleges as Incubators of Innovation Rebecca A. Corbin, Ron Thomas, 2023-07-03 While community colleges have traditionally focused on providing students with opportunities to gain credentials for employment the increasingly important question is Are they preparing students for the looming dynamic disruptive and entrepreneurial environments ahead This book addresses the urgent need for community colleges to prioritize entrepreneurship education both to remain relevant in a changing economy and to give graduate students the flexible and interdisciplinary mindsets needed for the future of society It argues that entrepreneurial education should be offered broadly to a wide range of students and across all disciplines defines the key constructs for achieving this objective and describes how to create entrepreneurial learning environments The expert contributors with the support of the National Association for Community College Entrepreneurship NACCE start from the premise that community colleges are uniquely positioned to lead entrepreneurial initiatives through both internally generated curriculum design and through collaboration with the local entrepreneurial community to build bridges between the classroom to the community which in turn can offer models of implementation and constitute a network or support system for students Community colleges can become incubators of innovation a magnet for talent and provide the impetus for development strategies that their communities have not begun to realize As the chapters make clear developing an entrepreneurial program itself requires an entrepreneurial mindset that transcends any lack of resources requiring a spirit of imagination and resourcefulness This book takes the reader on a journey through the steps needed to build a meaningful relevant and sustainable entrepreneurship program covering program development curriculum design appropriate pedagogical approaches and community engagement

The Trump Effect L. Rowand Archer, 2022-11-03 With the election of Donald Trump on November 8 2016 Americans experienced a sense of relief and joy knowing they could again participate in a vibrant business environment that offers them the power of self determination and the freedom to pursue their life goals and live according to their faith unencumbered by political correctness and the stifling ideology of creeping socialism For the last fifty or so years the dark side left have though academia the entertainment industry deep state bureaucrats and the liberal big media successfully been undoing the centuries old institutions of free market economies which has created unprecedented wealth the world over In its place the dark side left have been molding these institutions to reflect their warped ideology of a new socialist world order with no boarder and based on a Marxist progressive left utopia an

oxymoron if there ever is one The long term strategy for achieving their transition relies on undermining the economic engine by enacting burdensome big government regulations by imposing political correctness and identity politics into our daily conversations social interactions and norms and finally by attacking one s religious faith and values The dark side left s long march through the culture has resulted in the indoctrination of each new generation using the direct influence of academia movies and television programs the daily news coverage and government policy Miraculously as if by divine intervention after just one year of his presidency Donald Trump has managed to force into the open this sinister plot by the dark side left with the world now acutely aware of the serious bias of the liberal big media the corruption present at the senior levels of the intelligence branches left behind by the Obama administration the serious extent of liberal bias in academia and their effort to restrict free speech and the self interest of lawmakers seeking self enrichment from Washington s swamp dwelling domestic and foreign lobbyists With his unwavering commitment to work on behalf of the American people Trump has almost single handedly inflicted journalists and the political elites with varying degrees of Trump derangement syndrome and exposing their warped self serving values resulting in them becoming almost totally incapable of providing unbiased insightful political arguments on current issues for their audience Because of President Trump the world is witnessing the excruciating collapse of the dark side left and the Washington swamp His ability to navigate through the minefields laid by the bipartisan swamp and the liberal big media can only be answered through our faith in God who in all his wisdom has chosen this man to save free market countries and its people from the evils of the dark side left and their elitist minions
