MODERN BIOLOGY

A detailed illustration of two owls perched on a branch. The owl in the foreground is shown in profile, looking towards the right. It has dark, mottled feathers on its head and back, and lighter, patterned feathers on its wings. Its eyes are a striking, bright orange-red color. The second owl is positioned behind the first, partially obscured, and is looking towards the left. The background is dark, making the intricate patterns of the owls' feathers stand out.
