An Epistemic Theory of Democracy Robert E. Goodin, Kai Spiekermann, 2018-04-26 Democracy has many attractive features Among them is its tendency to track the truth at least under certain idealized assumptions That basic result has been known since 1785 when Condorcet published his famous jury theorem But that theorem has typically been dismissed as little more than a mathematical curiosity with assumptions too restrictive for it to apply to the real world In An Epistemic Theory of Democracy Goodin and Spiekermann propose different ways of interpreting voter independence and competence to make jury theorems more generally applicable They go on to assess a wide range of familiar political practices and alternative institutional arrangements to determine what constellation of them might most fully exploit the truth tracking potential of majoritarian democracy The book closes with a discussion of how epistemic democracy might be undermined using as case studies the Trump and Brexit campaigns *MANAGEMENT AND COST ACCOUNTING* COLIN M.

DRURY, 2013-12-11 *New York Musical Review and Choral Advocate*, 1858 **The 'New' Public Benefit Requirement** Mary Synge, 2015-08-27 This book examines the public benefit requirement which provides that a charity's purposes must be for the public benefit This requirement was given statutory force by the Charities Act 2006 which also provided that public benefit is to be construed in accordance with existing case law and not presumed The author examines guidance published by the Charity Commission in 2008 and 2013 and measures its accuracy against principles extrapolated from case law with a focus on fee charging charities and independent schools in particular She also considers the implementation of the Charity Commission's public benefit assessments of independent schools during 2008-10 The book offers a comparative study of the law relating to public benefit in Scotland and presents an analysis of the decision of the Upper Tribunal Tax and Chancery in proceedings brought by the Independent Schools Council and Attorney General in 2011 It also considers subsequent reviews of the 2006 Act by Lord Hodgson and the Public Administration Select Committee and the Government's response to those reviews in September 2013 The fact that the law automatically bestows certain privileges on charities including tax exemptions means that the charitable status of fee paying schools has proved particularly contentious and was described by Lord Campbell Savours as making an absolute nonsense of charity law Here the author asks whether the public benefit requirement as enacted and interpreted has succeeded in bringing any sense to our law of charity in recent years

Keynes, Chicago and Friedman, Volume 2 Robert Leeson, Milton Friedman, 2024-11-15 These two volumes present essays on the subdiscipline of Chicago Monetarism in economics Some of the issues under dispute can be regarded as resolved while others are still being debated The contributors include Friedman Patinkin Harry Johnson and James Tobin **The Arithmetic Teacher**, 1976 *New York Weekly Review*, 1858 **Building World**, 1901 Learning and Teaching in the Secondary School Kenneth H. Hoover, 1972 **Answering for Crime** R A Duff, 2007-11-16 In this long awaited book Antony Duff offers a new perspective on the structures of criminal law and criminal liability His starting point is a distinction

between responsibility understood as answerability and liability and a conception of responsibility as relational and practice based This focus on responsibility as a matter of being answerable to those who have the standing to call one to account throws new light on a range of questions in criminal law theory on the question of criminalisation which can now be cast as the question of what we should have to answer for and to whom under the threat of criminal conviction and punishment on questions about the criminal trial as a process through which defendants are called to answer and about the conditions bars to trial given which a trial would be illegitimate on questions about the structure of offences the distinction between offences and defences and the phenomena of strict liability and strict responsibility and on questions about the structures of criminal defences The net result is not a theory of criminal law but it is an account of the structure of criminal law as an institution through which a liberal polity defines a realm of public wrongdoing and calls those who perpetrate or are accused of perpetrating such wrongs to account
