The image displays three sample math worksheets from a 4th-grade summer review packet. The worksheets are:

- Equivalent fraction:** Titled "Equivalent fraction", it includes a fraction model with a bar divided into 12 equal parts, 4 of which are shaded. The problem asks to identify the fraction shown in the model and then multiply the numerator and denominator by 2 to find an equivalent fraction.
- Missing Measurements:** Titled "Missing Measurements", it asks to determine the missing measurement in the angles below. It shows several geometric diagrams, including triangles and quadrilaterals with some angles labeled and others as 'x'.
- Classifying Shapes:** Titled "Classifying Shapes", it shows various shapes like a triangle, a square, and a circle. The problem asks to circle the shapes that have parallel lines, perpendicular lines, or acute and obtuse angles.

On the right side of the worksheets, there is a cartoon illustration of a boy with dark skin and curly hair, wearing a blue life preserver and goggles, reading a large yellow book.
