Blood Cries Out A. J. Swoboda, 2014-11-11 John McConnell Jr was the famed founder and visionary of Earth Day McConnell's vision was one of creating a day of remembrance solitude and action to restore the broken human relationship to the land Little acknowledged are McConnell's religious convictions or background McConnell grew up in a Pentecostal home In fact McConnell's parents were both founding charter members of the Assemblies of God in 1914 His own grandfather had an even greater connection to the origins of Pentecostalism by being a personal participant at the Azusa Street Revival in Los Angeles in 1906 Earth Day thus began with strong religious convictions McConnell seeing the ecological demise through his religious background envisioned a day where Christians could show the power of prayer the validity of their charity and their practical concern for Earth's life and people In the spirit of McConnell today's Pentecostal and Charismatic theology has something to say about the earth **Blood Cries Out** is a unique contribution by Pentecostal and Charismatic theologians and practitioners to the global conversation concerning ecological degradation climate change and ecological justice

Beyond Post-Traumatic Stress Jean Scandlyn, 2017-07-05 When soldiers at Fort Carson were charged with a series of 14 murders PTSD and other invisible wounds of war were thrown into the national spotlight With these events as their starting point Jean Scandlyn and Sarah Hautzinger argue for a new approach to combat stress and trauma seeing them not just as individual medical pathologies but as fundamentally collective cultural phenomena Their deep ethnographic research including unusual access to affected soldiers at Fort Carson also engaged an extended labyrinth of friends family communities military culture social services bureaucracies the media and many other layers of society Through this profound and moving book they insist that invisible combat injuries are a social challenge demanding collective reconciliation with the post 9 11 wars

Brazil on the Global Stage Oliver Stuenkel, Matthew M. Taylor, 2015-04-15 In the past generation Brazil has risen to become the seventh largest economy and fourth largest democracy in the world Yet its rise challenges the conventional wisdom that capitalist democracies will necessarily converge to become faithful adherents of a US led global liberal order Indeed Brazil demonstrates that middle powers even those of a deeply democratic bent may differ in their views of what democracy means on the global stage and how international relations should be conducted among sovereign nations This volume explores Brazil's postures on specific aspects of foreign relations including trade foreign and environmental policy humanitarian intervention nuclear proliferation and South South relations among other topics The authors argue from a variety of perspectives that even as Brazil seeks greater integration and recognition it also brings challenges to the status quo that are emblematic of the tensions accompanying the rise to prominence of a number of middlepowers in an increasingly multipolar world system

Redesigning the Global Seed Commons Christine Frison, 2018-11-08 There is much current controversy over whether the rights to seeds or plant genetic resources should be owned by the private sector or be common property

This book addresses the legal and policy aspects of the multilateral seed management regime First it studies in detail the International Treaty on Plant Genetic Resources for Food and Agriculture the Treaty in order to understand and identify its dysfunctions Second it proposes solutions using recent developments of the theory of the commons to improve the collective seed management system of the Treaty a necessary condition for its member states to reach the overall food security and sustainable agriculture goals Redesigning the Global Seed Commons provides a significant contribution to the current political and academic debates on agrobiodiversity law and governance and on food security and food sovereignty by analyzing key issues under the Treaty that affect the design and implementation of regulatory instruments managing seeds as a commons It also examines the practical legal political and economic problems encountered in the attempt to implement these obligations in contemporary settings In particular it considers how to improve the Treaty implementation by proposing ways for Contracting Parties to better reach the Treaty s objectives taking a holistic view of the human seed ecosystem Following the tenth anniversary of the functioning the Treaty s multilateral system of access and benefit sharing which is currently under review by its Contracting Parties this book is well timed to examine recent developments in the field and guide the current review process to design a truly Global Seed Commons
