Read the passage carefully and answer the questions.

## The Tree That Grows Beneath the Earth

Lena had always loved trees. She spent hours drawing pictures of them, watching them sway in the wind, and imagining what it would be like to live in one. But she had never heard of a tree that could grow beneath the ground until she met Mr. White, a local botanist.

One day, Mr. White invited Lena to join him on an excursion into the forest to look for a rare tree known as the "Earth Tree." This tree's roots grow downward and spread wide beneath the earth, forming a network of tunnels that the tree uses to gather nutrients from deep in the soil. The tree itself barely shows above the ground, but its underground network is massive and supports many other plants and creatures.

Lena was amazed by the Earth Tree. She had always thought that trees only grew above the soil, but this one proved that there was much more to the world of plants than she had ever imagined.
