

## Quick Reference Guide: Business Analyst Professional Development

**Make Consistency Your Priority** – It is crucial that all analysts perform their function in exactly the same way. A lack of consistency on the business analysis side means that organizations fail to consistently get a handle on their portfolio of projects, struggle to be more efficient at sizing projects and setting delivery expectations, and are poor at communicating needs to IT delivery stakeholders.

**Separate Elicitation Methodology from Documentation Methodology** - Elicitation is how you go 'get' the information you need. Documentation is how you 'write it down'. Unfortunately, many organizations confuse the two. Organizations must be sure that analysts are strong in both areas. Remember the adage "garbage in, garbage out" – if you wish to prevent garbage into the templates or tools, then the organization needs to make a concerted effort to improve the approach to elicitation.

**Don't Underestimate the Magnitude of Change Required** - Business analysis is very complex. It's not uncommon that an executive will underestimate the magnitude of change and expect that a week of training is enough. A BA must be strong in each of the six capability areas, and all five associated processes. Limited training will lead to knowledge and skill gaps that will affect results. Whatever the approach, don't underestimate the magnitude of change required, and don't focus the target of training too narrowly.

**Business Analysis Excellence is Achieved through Experience** - Analysts must make the methods and techniques of facilitation second-nature. A BA must also have enough breadth of experience with different groups of stakeholders that they know how to apply these to the situation at hand. This can only be achieved through experiential learning.

**Targeting Development of Soft Skills** - The role of a BA is ultimately to communicate business needs. Effective communication requires judgment, business acumen, and leadership in addition to the core analytical, oral and written skills that are usually associated with the role. These soft skills simply cannot be ignored.
