is designed to present a number of different statements about various dimensions of the arts in their relationship to the Bible. The Bible is the document that stands behind the Christian church as an inspiration to it and to its arts. As a result we have divided this volume into six parts: perspectives on the arts, culture and art, visual enactments, contemporary interpretations, music and the Bible, and literature. Many of the issues that the history of the interaction of the arts and the Bible within the Christian church has uncovered are insightfully and artfully addressed by this book.
