**Reinforced Concrete Design to Eurocodes** Prab Bhatt, T.J. MacGinley, Ban Seng Choo, 2014-02-28 This fourth edition of a bestselling textbook has been extensively rewritten and expanded in line with the current Eurocodes. It presents the principles of the design of concrete elements and of complete structures with practical illustrations of the theory. It explains the background to the Eurocode rules and goes beyond the core topics to cover the design of foundations, retaining walls and water retaining structures. The text includes more than sixty worked out design examples and more than six hundred diagrams, plans and charts. It is suitable for civil engineering courses and is a useful reference for practicing engineers. *WE WERE REOs* Richard 'Barney' Bigwood and Andrew Bi, 2011-05-23 One hundred and fifty million dollars is a lot of money to give away. It is an estimate of how much was paid out in foreign aid last year. When it helps the sick, the starving, the homeless, the deprived, we feel the money is well spent. But who knows how much is pocketed by greedy gangsters and government officials in corruption or theft? The origins cannot be traced of eighty percent of hospital drugs in one large country. If you get sick, you pay a lot of money for treatment with such drugs, but how they got there, no one seems to know. Those who own the hospitals just get rich. From the south of France to Italy, London to the Russian Far East, Marcus Black searches for someone who knows too much. He finds passion and power, deceit and death. Whether it is Italian omertà or English discretion, so much is kept quiet. And who can be trusted when big money is at stake.
