

Please Be Kind To The Animals

**Please be kind to the animals
they really are God's creatures, too.
Put here on earth to live free with nature
not intended to live in a cage.**

**The animals have no anger or hate
they have no fear of man.**

**The lessons learned are not from a book
but from a kind, caring Mother and Dad.**

**They learn respect and getting along
lessons they never forget.**

**Survival comes first, but they still feel joy
and pleasures from sweet Mother Earth.**

**Please be kind to the animals
give them room to roam
let them be themselves**

not as man would want them to be.

Comparing Yourself To Animal Poem:

Poetry and Animals Onno Oerlemans, 2018-03-06 Why do poets write about animals What can poetry do for animals and what can animals do for poetry In some cases poetry inscribes meaning on animals turning them into symbols or caricatures and bringing them into the confines of human culture It also reveals and revels in the complexity of animals Poetry through its great variety and its inherently experimental nature has embraced the multifaceted nature of animals to cross blur and reimagine the boundaries between human and animal In *Poetry and Animals* Onno Oerlemans explores a broad range of English language poetry about animals from the Middle Ages to the contemporary world He presents a taxonomy of kinds of animal poems breaking down the categories and binary oppositions at the root of human thinking about animals The book considers several different types of poetry allegorical poems poems about the animal broadly conceived poems about species of animal poems about individual animals or the animal as individual and poems about hybrids and hybridity Through careful readings of dozens of poems that reveal generous and often sympathetic approaches to recognizing and valuing animals difference and similarity Oerlemans demonstrates how the forms and modes of poetry can sensitize us to the moral standing of animals and give us new ways to think through the problems of the human animal divide

Asma,2001 The natural history museum is a place where the line between high and low culture effectively vanishes where our awe of nature our taste for the bizarre and our thirst for knowledge all blend happily together But as Stephen Asma shows in *Stuffed Animals and Pickled Heads* there is more going on in these great institutions than just smart fun Asma takes us on a wide ranging tour of natural history museums in New York and Chicago London and Paris interviewing curators scientists and exhibit designers and providing a wealth of fascinating observations We learn how the first museums were little more than high toned side shows with such garish exhibits as the pickled head of Peter the Great s lover In contrast today s museums are hot beds of serious science funding major research in such fields as anthropology and archaeology Asma also points out that these museums actively shape our perception of nature and that these efforts are swayed as much by politics as by science In countless exhibits for instance the idea of the traditional nuclear family is evident in displays of everything from extinct animals to grizzly bears in nature alas the male bear is more likely to devour its young than to nurture them Where else but at a natural history museum could you find a T rex a high tech planetarium a Native American totem pole and flesh eating beetles all under one roof And in *Stuffed Animals and Pickled Heads* Stephen Asma reveals that what we don t see the scientific research that is going on backstage is just as fascinating as the exhibits on
