and therefore the principal reasons for its appearance are the following first theory and practice are thoroughly integrated  
with discussion of the best methodology of teaching reading followed by reports of actual teaching Second provision is made  
for class group and individual study of selected problems with suggestions for research and discussion at the end of each  
chapter Third the chapters are arranged to follow the chronological order of school grades as this simplicity makes the  
material easy for prospective and in service teachers to use Fourth each chapter begins with a statement of the main points  
treated and is ended by a brief summary of the central thought discussed by the chapter It is thus hoped that this material  
will be of the most use to the largest number of prospective and in service teachers    **Oregon Teachers Monthly** ,1921
