Mohamed Rawidean et al[1] show the WSN as the best way to solve the agricultural problems related to farming resources optimization, decision making support, and land monitoring. This approach provides real-time information about the lands and crops that will help farmers make right decisions. agriculture systems based on the internet of things (IOT) technology is explained in detail. Author has concentrated on greenhouse. In this paper, a practical, low-cost and environmental friendly Intelligent Greenhouse Monitoring System (IGMS) is designed based on WSN technology. The main objective of this paper is to compare the efficiency of irrigation using two methodologies, Schedule and automated.

Chidambarnathan C.M et al[2] In this paper, Author have discussed the process to legitimately fine tune IEEE 802.15.4 details and the examining recurrence of conveyed sensor hubs. also introduced the challenges and issues in IEEE 802.15.4 mac protocol. Author have included limitations of wireless sensor network in agriculture like, Data security, Data maintenance, Size of the data and processing techniques, Handling Interruptions in data transfers.

G.Sahitya et al[3] In this paper, Author have discussed about zigbee. It is an IEEE based standard for wireless communication. The difference between the ZigBee and 802.15.4, 802.15.4 has only Mac and physical layer but layer above that is present in the ZigBee which makes the communication very effective. Author shows the design implementation of ZigBee.

Author has conducted two different set of tests were conducted are Test conducted in closed room and Test conducted with an open environment.

A reliable wireless sensor network is implemented. The output of the total setup designed can be observed in the computer to which the co-ordinator (receiver X Bee module) is connected.

*Information Coding Using Fuzzy Set Theory* Manu Banga,2022-10-07 Document in the subject Mathematics General Basics language English abstract

Chapter 1 In this chapter a brief literature survey on measures of entropy and divergence measures is presented It also outlines the basic concepts of fuzzy sets A brief review on fuzzy information measures and fuzzy directed divergence are given here The concept of multiple criteria decision making problem is also presented In addition a general overview of coding theory is given and summarizes the objectives with an overview of the work reported in later chapters Chapter 2 In Chapter 2 after reviewing some literature on measures of information for fuzzy sets a new generalized fuzzy information measure involving two parameters of order and type has been introduced The necessary properties of the proposed measure have been verified Further the monotonic nature of generalized fuzzy information measure with respect to the parameters is studied and the validity of the same is verified by constructing the computed tables and plots on taking different values of the parameters Chapter 3 Divergence is an important measure in information theory as well as in fuzzy set theory which has widely used by researchers in many application areas Generalized divergence measures provide flexibility to the users and

enhance their applicability range This chapter proposes a new generalized fuzzy divergence measure It may be remarked that the strength of a measure lies in its properties The new measure has important properties proved in this chapter to enhance the employability of this measure Special cases are also discussed for providing particular results Chapter 3 deals with the introduction of a new generalized measure of fuzzy directed divergence involving two real parameters The proposed measure satisfies all the necessary properties of being a measure Some additional properties of the proposed measure have also been studied Further the monotonic nature of generalized fuzzy directed divergence measure with respect to the parameters is studied and validity of the same is checked by constructing the computed tables and plots on taking different fuzzy sets and different values of the parameters Corresponding measures of total ambiguity and fuzzy information improvement have also been defined and studied
